# YOUR HELP = HOPE

In February 2018, Nigeria overtook India as the country with the most people living in absolute poverty; around 67% of Nigerians live on less than \$1.25 a day.

The United Nations Development Program defines absolute poverty as the inability to provide physiological subsistence (such as food, shelter, clothing, potable water, safety, healthcare service, basic education, transportation and gainful employment) to the extent of being unable to protect human dignity.

## HEALTH • OPPORTUNITY • PURE WATER • EDUCATION

NUWAY has provided over \$350,000 for the improvement of healthcare facilities; for the salaries of the doctors, nurses and lab technicians; and for imperative healthcare initiatives such as HIV screening, family planning, and neonatal care.

Over 500 people have benefited from NUWAY's interest-free microloan program to start businesses such as animal and agricultural farming, grain and oil milling, taxi services, and sewing services. Once the individual is able to support his/her family, the loan is repaid and the money is recycled.

NUWAY has drilled 15 clean-water wells and provides money to have those wells maintained. The villagers who used to walk more than 2 miles to get water, now travel no further than a 1/4 mile.

Sixteen teachers are paid by NUWAY to educate the more than 400 primary and secondary students. NUWAY provides textbooks, furniture and equipment, computers and printers. NUWAY also funds the Francie & John Pepper Stem Building, a school known for elevating academic performance.

**NUWAY**  
*foundation*

# 1 of 5 children die before the age of five from pneumonia, diarrhea, malaria, and other neonatal causes.

**40%** of Nigerian's are unemployed or underemployed.

**90%** of Nigerian households drink contaminated water, causing several water-borne diseases.

**40%** of adults in Nigeria cannot read or write.
